PEEL

# Funky Circular Interior Objects

Sustainable design doesn't mean giving up the joy of creation - it's a launchpad for creativity. Join the movement !

**VANK**

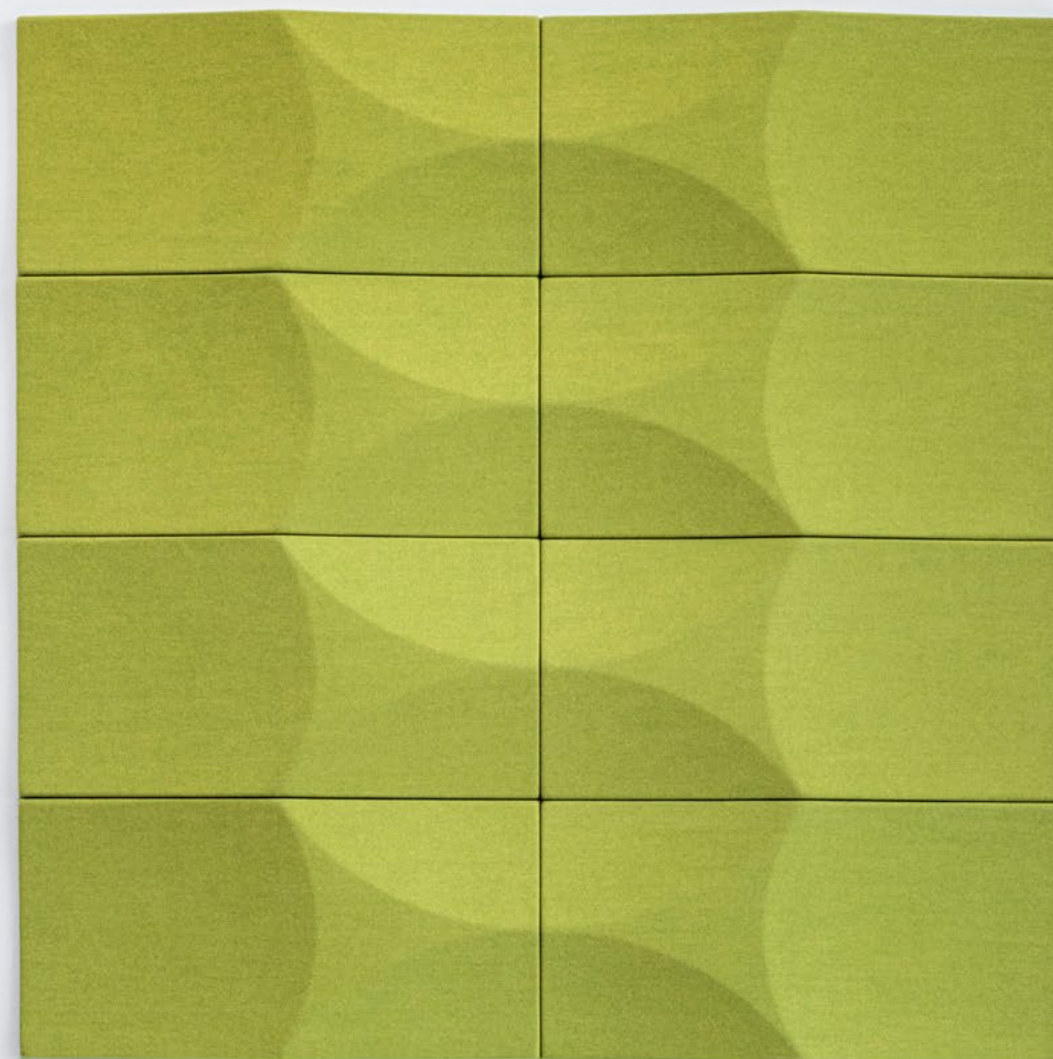

The VANK\_PEEL series was born out of respect for natural wood resources. Guided by the principle of “reduce,” the collection translates sustainable thinking into practice through advanced technology that saves material and unlocks its full potential. The name itself alludes to the soft, flowing forms of nature and highlights the creative use of veneer fragments that would otherwise remain unused – turning them into inspiring, valuable material.

The PEEL seat shell is crafted in innovative 3D plywood technology with natural veneer. Thanks to its distinctive 3D mesh structure, even shorter pieces of veneer can be arranged into a seamless surface, giving them a new life. The minimalist form of the collection reflects reverence for nature while ensuring that each piece can be easily disassembled and recycled at the end of its life cycle.

Jury statement – ICONIC AWARDS 2022:

*“The VANK\_PEEL chair captivates with its dynamic, organic design that conveys a sense of constant movement. Its sinuous frame lends a wonderfully delicate, almost filigree aesthetic, further enhanced by the thin plywood shell. Made using leftover veneer and fully recyclable, it is also environmentally friendly. A beautiful, elegant lounge chair that offers excellent seating comfort with its ergonomically shaped shell – and enriches any lobby with its presence.”*

The VANK\_PEEL lounge chairs bring character and informality to shared spaces – from office and hotel lobbies to receptions and cafés. They create an atmosphere of openness and ease, so essential in today's work and leisure environments. The signature sinusoidal steel frame accentuates the lightness of the form and echoes the collection's organic inspirations.

The series extends into a complete collection, complemented by side tables, desks, and a dining table that adapt effortlessly to both public and private interiors. Whether a small coffee table or a functional desk, each element resembles a refined installation, adding visual lightness and harmony to the space.

VANK\_Peel conference chairs, available on a four-star aluminum base or a five-star swivel base with height adjustment, bring elegance and balance to meeting rooms. Their harmonious form, flowing plywood lines, and the natural grain of the veneer emphasize the organic character of the collection. At conference tables, they combine comfort, design, and timeless aesthetics.

VANK is a team of architects, engineers, and artisans. We create furniture. Objects. Tangible signs in space. Items designed intelligently, with respect for the natural environment, and manufactured using the latest technologies. We believe in a circular economy model that limits the consumption of natural resources by increasing the use of renewable, bio-based or recycled materials.
